Private Dog Park

Vaccinations

Star Dog requires all dogs to be current on Rabies, Distemper/Parvo and Bordatella vaccinations.

Please note that the Bordatella vaccination is required every six months.

Prior to your dog's visit, Star Dog must have documentation confirming all required vaccinations are current.

A positive Bordatella titer blood test would also be accepted.

Flea/tick preventative should be applied each month.

Star Dog reserves the right to refuse services to any dog without current vaccinations or extreme behavior.

Temperament Evaluation – Free

Star Dog provides a free personalized evaluation of your dog's behavior and temperament. Then, we will design a training program and suggest activities that will help 'shape' your dog into a perfect companion! Teaching people canine logic and how to understand their dog's behavior is what we do best! Our training philosophy encourages owners to train with good attitudes, have fun and keep your dog active!

* All dogs participating in activities at Star Dog must be evaluated and approved prior to facility use.

Dog Handling and Training Disclosure

Canine members visiting Star Dog should be managed on leash at all times by owner and staff except in **Dog Park** or **Training Arena**. Proper canine 'social etiquette' must be followed by member canines at all times. Owners should know their dog's 'triggers' and 'habits' in social environments. To ensure proper behavior in our social play areas, our staff may apply behavior modification techniques and obedience training to your dog.

Dogs may be 'timed out' or removed from activities if their behavior creates unruly or aggressive behavior.

Star Dog reserves the right to provide medical care for your dog.
